

Why use a

CEDIA member?

your home deserves nothing less

Think Home Installation; Think CEDIA

- **CEDIA** members are experts in the integration of electronic systems into Home Environments
- To be accepted as a **CEDIA** member, companies must meet rigorous application criteria including submitting client references
- Members are required to have **CEDIA** Certified technicians and/or designers
- Committed to Continuing Education programme, Certified members are constantly updating their skills, to bring you the latest technologies
- **CEDIA** members have an established Trading History
- To become **CEDIA** members, companies must submit copies of their insurance certificates to **CEDIA**

What can a CEDIA member do for you?

A **CEDIA** Certified member will spend time with you to find out what you need, explain what's possible and then provide you with a customised and user-friendly solution that delivers the maximum benefits for YOUR lifestyle and budget.

- Home Cinema Design
- Home Automation, controlling lighting, air conditioning, blinds
- Networking/Telephony
- Security
- Whole Home Audio & Video Systems, including AV storage & playback systems
- Energy Management solutions

CEDIA members adhere to a strict Code of Ethics,* are qualified, insured and reputable, giving you peace of mind that you are working with a professional

Founded in 1989, **CEDIA (Custom Electronic Design and Installation Association)** is the international trade organisation for the integrated home technology industry. As a not-for-profit association, **CEDIA** strives to implement standards across the industry, ensuring the highest quality and levels of work for the consumer.

*Please refer to www.cedia.co.uk for our Code of Ethics
